JOHN B. TRIVETT,

Government Statistician.

MEMORANDA.

Trade.—The imports during September were valued at £3,758,858, which shows an increase of £147,611, as compared with the corresponding month of last year. For the nine months there was a decrease of £1,331,531, or nearly 5 per cent., as compared with last year. The direct overseas imports during September amounted to £1,696,342, as compared with £2,180,649 in 1907; the total for the nine months was £14,774,443, a decrease of £340,477 over the corresponding figures for 1907. There were decreases in almost all the principal articles; machines and machinery, sugar, and timber, however, showed increases. Gold also shows a heavy falling-off.

The overseas exports for September amounted to £2,300,867, and show a decrease of £68,651, as compared with the corresponding month of last year. Minerals decreased by £89,700, and wool by £401,100. For the nine months there was a decrease in the overseas exports of £4,319,165, or nearly 20 per cent., as compared with last year. Most of the principal articles show large decreases—Wool, £2,692,000; minerals, £913,000; wheat, £729,000; skins, £319,000; meats, £231,000; and tallow, £108,000; horses, coal, hides, and wine, however, show increases. Separating merchandise from gold, the exports of the former during the nine months decreased by £5,179,527, but the latter increased by £860,362.

Public Finances.—The Public Accounts for September show that the net revenue for the month was £1,062,302, or £15,518 more than in September of last year. During the three months ended 30th September the revenue was £3,141,684, being £110,837, or 3·4 per cent., less than the corresponding period of the last financial year. The principal increases in receipts during the three months were—From Land Revenue, £38,312; Railways and Tramways £64,781; and Sydney Harbour Trust, £4,226. The returns from Commonwealth revenue decreased by £109,558; and taxation, £49,218. The expenditure during September was £1,271,913, an increase of £61,081 as compared with September of last year. During the three months the expenditure was £3,470,893, being £205,657, or 6·3 per cent. more than in 1907–8. Expenditure on Government Departments decreased by £7,500, and on Business Undertakings increased by £105,025, and Interest payments by £35,032. On the 30th September, 1908, the balance to credit of the Consolidated Revenue Account was £1,244,957.

Mineral Production.—The value of the minerals exported from New South Wales during the third quarter of 1908 amounted to £1,573,684, and during the first nine months to £4,924,378, which show decreases of £602,208 and £966,540 respectively, as compared with the corresponding periods of last year. The decline is wholly due to the fall in prices, as the quantities produced, except in the minor instances of copper and tin, have increased. The gold yield during September was 16,828 oz. crude, equal to 14,395 oz. fine, valued at £61,147. During the nine months of 1908 there has been a decrease in the value of gold produced of £62,056, as compared with the corresponding period of last year.

Prices.—The general index number for September was lower than for the previous month, and was nearly 14 per cent. lower than for September of last year. It was also the lowest number for September since 1905. The index number for pastoral produce was 1,085, for metals 1,085, and for all articles 1,143. During the month the prices of butter, leather, silver, and tin receded, whereas wool in grease, frozen mutton, and hides advanced. Other articles remained about the same level as in August.

Postal Communication.—The figures for 1907 show that 137,229,000 letters and post cards were carried during the year. This represents the very high proportion of 88 per head of population, which is exceeded by very few countries. The number of post offices was 2,319, and there were 15,910 miles of telegraph line open. There was on the average one post office to every 678 of the population.

Meteorology.—The rainfall during September over the greater part of the Central and Western districts was considerably below the average. The Southern border districts, North West Plain, Slope, and Northern Tableland, however, benefited to some extent, and, generally had falls above the average. The temperatures recorded were, for the most part, below normal.

Land Selections.—During September 218 new settlers applied for 123,711 acres; and 118,157 acres, representing 152 blocks, were set apart for residential settlement. Since the beginning of the year the number of new settlers has been 1,959, and the area applied for 1,104,732 acres. The original area set apart for residential settlement since the 1st January has been 826,724 acres, representing 986 blocks.
